

"I enjoy working along side of the talented team of individuals at Advantage, working cohesively to assist our clients in the challenging field of commercial real estate."

For Paula, West Michigan is home because of the people. Her desire to inspire and help others is one of the many reasons she became involved in commercial real estate.

Through Paula's work, she is able to help businesses succeed and create lasting experiences for the West Michigan community. Her extensive background in commercial real estate allows her to provide superior client customer service, coordination of real estate closings, sale/lease comparable data, property tax, township zoning, multi-project management, and regional data to clients looking to place their roots in West Michigan.

Overall, Paula is fascinated by commercial real estate, the local community and the business changes that occur within our market. In her role at Advantage, as Executive Assistant to Duke Suwyn, she enjoys being able to challenge people to use their talents to excel to the best of their ability.
