

“Marketing is so much more than a promotional or advertising tool. It allows us to **build relationships**. Between clients, individuals, and Advantage.”

Joining people and passions together, has been Marihelena’s ultimate goal throughout her career.

Starting in residential real estate as a marketing director and then using her talents in the radio promotion industry, Marihelena is now using her marketing experience in commercial real estate.

With vast experience in marketing, branding, and commercial/social media advertising, Marihelena offers a unique perspective at Advantage Commercial Real Estate. Her goal is to offer marketing efforts that are transparent, honest, and that enhance each client’s vision and voice. She prides herself in implementing honorable and transparent marketing practices that protect the reputation of both Advantage Commercial Real Estate and its clients.

Although through the years, her career and studies have taken her elsewhere, Marihelena has found that West Michigan is home. Her love for Grand Rapids stems from it’s innovative and hospitable culture that truly make it a unique city that is showing substantial growth.

Marihelena works to create a comprehensive vision for clients through marketing pieces that support their objective. All while prioritizing relationships and serving with excellence.
